BOOK SYNOPSIS

Crimen y castigo es una de las novelas psicológicas clásicas de Dostoievski y una de las grandes novelas de la literatura universal. Su argumento gira en torno a un joven estudiante que no encuentra otra solución para aliviar su pobreza que matar y robar a una vieja usurera. La novela está estructurada sobre un tema ético: el fin no justifica los medios. Se asiste así a un complicado proceso mental durante el cual el estudiante elabora meticulosamente su crimen, sin pensar en las ventajas directas y materiales que le pueda reportar, es casi un crimen altruista. La obra abarca multiplicidad de sentimientos, emociones, ideologías y otros elementos que integran la psicología de una persona.
