BOOK SYNOPSIS

ECERS-E is designed to be used with the Early Childhood Environment Rating Scale-Revised (ECERS-R), an internationally recognized measure of quality in education and care. It not only complements the ECERS-R but extends the scales to provide additional insights into important aspects of literacy, mathematics, science and environment, as well as practices related to issues of diversity. Given the current focus on emerging literacy and numeracy skills, the ECERS-E provides guidance on the kinds of environments that enhance learning in preschool settings.
