BOOK SYNOPSIS

Preserve foods at their freshest and most flavorful with pressure canning! Pressure canning is the only safe way to preserve low-acid foods, including meats, fish, and most vegetables, in jars at home. That's because pressure canning allows the home canner to heat jars and their contents accurately to 240 degrees F (116 degrees C), the temperature threshold at which spores of the bacterium responsible for botulism poisoning are killed. In *Modern Pressure Canning*, preserving and canning veteran Amelia Jeanroy (*The Farming Wife*) teaches everything the home canner needs to know to use a pressure canner safely and effectively to make delicious, shelf-stable foods in the kitchen. She also provides a wide variety of recipes for canning everything from sweet corn and apple sauce to Italian meatballs and chicken soup.

MODERN PRESSURE CANNING RECIPES AND TECHNIQUES FOR TODAY'S

HOME CANNER - Are you looking for Ebook *Modern Pressure Canning Recipes And Techniques For Today's Home Canner*?
