## BOOK SYNOPSIS

Millennial business guru and entrepreneur Daniel DiPiazza was once your typical 20-something. Working multiple jobs to support himself through college, he hoped, like the rest of his generation, that his degree would lead to a lucrative and satisfying career. But when he was struggling to make ends meet post-graduation and discovered that the SAT prep course paying him \$18/hour to tutor its students was actually charging his tutees \$100/hour and making a hefty profit off his skills, DiPiazza realized he could no longer accept other peoples estimation of his value. Flash forward a few years and he has since started three successful freelance businesses, scaling them all to \$100K+ with zero startup capital. A Rich20Something had been born. Based on his massively popular website of the same name, Rich20Something is a clever, candid step-by-step guide to help smart, ambitious 20-somethings (and beyond) identify and use the skills they have to break free of the 9-to-5 slog, start a business they care about, and build a career and life they love. This is not another collection of rehashed "life hacks," motivational platitudes, or tired common-sense advice. Rather, DiPiazza shows you how to monetize what you already know how to do, get paid what youre worth, and turn that into a purpose-filled career. Filled with concrete examples, practical advice, case studies, and DiPiazzas inimitable voice, Rich20Something is a must-have handbook for getting the most out of your life now. From the Hardcover edition.
