BOOK SYNOPSIS

The unforgettable first novel that established Isabel Allende as one of the world's most gifted and imaginative storytellers—now available for the first time as an ebook. *The House of the Spirits* brings to life the triumphs and tragedies of three generations of the Trueba family. The patriarch Esteban is a volatile, proud man whose voracious pursuit of political power is tempered only by his love for his delicate wife, Clara, a woman with a mystical connection to the spirit world. When their daughter Blanca embarks on a forbidden love affair in defiance of her implacable father, the result is an unexpected gift to Esteban: his adored granddaughter Alba, a beautiful and strong-willed child who will lead her family and her country into a revolutionary future. One of the most important novels of the twentieth century, *The House of the Spirits* is an enthralling epic that spans decades and lives, weaving the personal and the political into a universal story of love, magic, and fate.
